E. B. DRAKE ALPINE GARDENS

INTRODUCTION

I am reducing prices again this year, and I think you will find them lower than most other nurseries are offering. I am listing only those which I have in large enough quantities that I can meet the demands which are sure to be made ou them at these bargain prices. However, I have small quantites of many species of plants, some of them rare or unusual, which, because of the limited amount of each, I dare not catalog. But to anyone wishing a variety of something different I will send one each of seven different plants for fifty cents, or one each of fifteen plants for one dollar. If you are not familiar with some of the plants offered I can assure you they are all worth while garden subjects. I am listing the plants in groups according to their usefulness. Group No. 1 being suitable for mixed beds or borders. Group No. 2 is for the rock garden or low beds or borders. Group No. 3 are all native evergreen shrubs or trees. I am sorry that I cannot describe them more fully, but if I am to continue selling at such low prices I cannot spend large sums on descriptive catalogs. Our plants are of the correct size and vigor for best results when transplanted to your garden, are true to name, and carefully packed to reach you in good condition. In case I am out of some item in your order may I substitute something as good or better? I will include extra plants for this privilege. All plants sent postpaid on orders of fifty cents or more. One dozen of one kind for the price of ten. Make all remittances payable to E. B. DRAKE, LAKEBAY, WASH.

ROUP NO. ONE
